

A comprehensive and practical live online workshop to enhance your ability to recognize potential problem loans early and establish practical workout strategies.

Problem Loan Identification and Workouts

**Caribbean Information &
Credit Rating Services Limited**

Background

With working from home now the new normal, CariCRIS has introduced virtual learning so that we can continue to facilitate the high-quality credit risk workshops that Caribbean risk professionals have grown accustomed to from us over the past 15 years. Our live online workshops are being provided to you at reduced prices cognisant of the difficult economic times, but with no sacrifice to the quality and comprehensiveness of the workshop content and classroom experience. Further enhancing your value for money is that you are now able to benefit from this positive learning experience from the comfort of your own home or office, and without the added burden of travel and accommodation costs and the time involved.

Our Live Online Workshops – How it works

The structure of our virtual learning programmes is designed to keep the same levels of engagement and networking as our in-person workshops. The workshops will be facilitated by highly knowledgeable and experienced instructors, who have successfully delivered their respective workshops both online and in-person over several years. Registered participants will join the workshops using standard virtual conferencing software (Microsoft Teams) and the workshop material will be presented live by the facilitator. Participants will be allowed to ask questions real time, there will be practical case studies to be completed in groups, and the number of participants will be capped to allow for an interactive, discursive style of training, just as in the classroom-based workshops. One-day courses will be split over two half-days and two-day courses over four half-days, to ensure a high level of engagement throughout the sessions and to give participants the flexibility to get other things done during the course of a workday.
